 Disposable Medical Instruments - premium quality at disposable prices

Disposable Medical Instruments are NHS Approved Suppliers of premium quality single use disposable medical instruments and procedure packs. We have an extensive portfolio of single use disposable products for GP Surgery's, PCT's, Podiatrists and healthcare professionals.

As members of the NHS Supply Chain Framework Agreement we offer a range of disposable instruments to PCT's and Teaching Hospitals, supplied on 30 Day Account terms against official NHS Purchase Orders. For podiatrists looking for quality disposable instruments and procedure packs we provide a fast, reliable service with full traceability.

For GP Surgeries looking to manage budgets and eliminate the risk of cross-infection Disposable Medical Instruments Ltd is the ideal supply partner.

As an NHS Approved Supplier with full ISO 13485 accreditation we are one of the few UK companies offering complete sterile procedure packs and individual disposable medical instruments.

Disposable Medical Instruments Ltd is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

Minimise waste by evaluating operations and ensuring they are as efficient as possible.

Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.

Actively promote recycling both internally and amongst its customers and suppliers.

Source and promote a product range to minimise the environmental impact of both production and distribution.

Meet or exceed all the environmental legislation that relates to the company.

An example of how Disposable Medical Instruments achieved this in 2010 was by reducing the way we packaged our range of podiatry products. This change not only saved on transport and packaging, it also allowed for more space in store cupboards in surgeries and clinics.
